Alcohol Enforcement Strategies for Iowa Communities

Register now for this free webinar on May 10, 2019, from 10:00-11:30 AM

1.5 Prevention Drug and Alcohol CEUs available

Presenters Christopher Bartolotta, Nancy M. McGee, JD, and Aidan J. Moore, JD, from the Pacific Institute for Research and Evaluation (PIRE) will present and facilitate discussion around successful environmental enforcement strategies as well as challenges for law enforcement including community support, enforcing new policies and others. They will also cover the importance of building a strong relationship between law enforcement and prosecutors to provide the strongest outcome for law enforcement measures to address alcohol-related problems.

PIRE's experienced and knowledgeable team of instructors will take you through some of the core law enforcement considerations, policies and strategies that your community could consider. The training will offer participants an opportunity to receive valuable insight and information from the organization that has been delivering national training and technical assistance on behalf of the US Department of Justice, Office of Juvenile Justice and Delinquency Prevention for over 14 years.

Share this opportunity with your coalitions, law enforcement, and others interested in prevention in Iowa.
