

Medical and Behavioral Effects of Prenatal and Environmental Drug Exposure

Date / Time

Fri, Aug 23, 2024
1:00 - 2:30pm

Location

Virtual

Prenatal and environmental drug exposure and trauma can have effects on the development and behaviors of infants and children. This presentation will look at the possible effects that may be seen in the child's early years. We will also look at basic interventions that caretakers can use when these effects are present.

If you are interested in receiving credit for attendance, please fill out the attendance form at this link - <https://forms.office.com/g/g9KxfaMEXY>.
