

# Let's put children's mental health first.

Acting out and having trouble handling emotions can be a normal part of childhood. It may also be a sign they could use mental health support. That's where Your Life Iowa can help. We're here to help you identify if it's just a phase or something else, and connect your family with support. That way they can live the life they deserve.

I don't like to act this way. I just need help.
