TBI Screening Tool

RESOURCE BOOKLET

A helpful resource booklet was developed by the Ohio Valley Center for Brain Injury Prevention and Rehabilitation to help providers

1. Recognize common symptoms of Traumatic Brain Injury (TBI),
2. Incorporate compensatory strategies into practice, and
3. Increase the odds of treatment success for people with TBI.

The four neurocognitive functions of Attention, Processing, Memory and Executive Function are illustrated and explored in this booklet, helping providers improve treatment outcomes.
