

Join the Smoke Free Homes Registry

Help give renters a safe place to live.

SMOKE
FREE
HOMES

When Iowans are looking for smoke free properties near them, they turn to the Smoke Free Homes Registry. By adding your property to the list, renters will know they can count on you to help protect them from secondhand smoke.

The first step? Making your property smoke free, if it isn't already.

Why Make Your Property Smoke Free?

Here are some of the benefits you can expect by going smoke free:

- You could save around \$890 on cleaning per unit — because that's how much more it costs to clean a unit that's been smoked in.
- You'll make tenants happy, since 74% of tenants prefer a smoke free home.
- Smoke free homes have a lower risk of fire.
- Insurance premiums are often less for smoke free properties.

What Will You Get by Joining the Registry?

When you add your property to the list, you'll have access to valuable tools that include:

- Management checklists
- Resident notice flyers
- Free signage
- Sample lease violations and more
