

Training Objectives:

After completing this virtual training, attendees will:

- Identify the impacts created in the interaction between chronic pain and substance use.
- Identify local resources in the state of Iowa for accessing resources for pain management.
- Identify non-pharmaceutical approaches for managing pain.

The purpose of the virtual conference is to provide education on approaches to managing pain and to educate community providers on local resources in the state of Iowa.

The target audience for this training is community service providers and health professionals who would benefit from behavioral health education.

Sponsored by the Iowa Department of Public Health and coordinated by Iowa State University - Conference Planning and Management. Funding provided by the State Opioid Response (CFDA 93.788) federal grant, the Prevention of Opioid Misuse in Women federal grant (CFDA 93.088) and the Substance Abuse Prevention and Treatment Block Grant (CFDA 93.959).
