What are fidelity and adaptation, and why are they important? We will delve into what fidelity looks like through each step of the Strategic Prevention Framework, and how you can leverage fidelity work to meet outcomes, build capacity and promote sustainability.

A few of the items we will cover include:

- Defining fidelity and adaptation
- Looking at fidelity through the context of the SPF
- Getting the right people at the table from the beginning
- Creating fidelity checks
- Using fidelity checks as a process measure for ensuring programs and strategies are being delivered as intended
- Using fidelity checks as a record of implementation to compare with unexpected outcomes
- Using fidelity checks as part of sustainability planning

This webinar will cover a wide variety of content around fidelity and include opportunities for interaction, additional resources and tools to take away and apply.
